Elizabeth Sheehan  
Founder and President  
Containers to Clinics (C2C)  
PO Box 446  
Dover, MA 02030

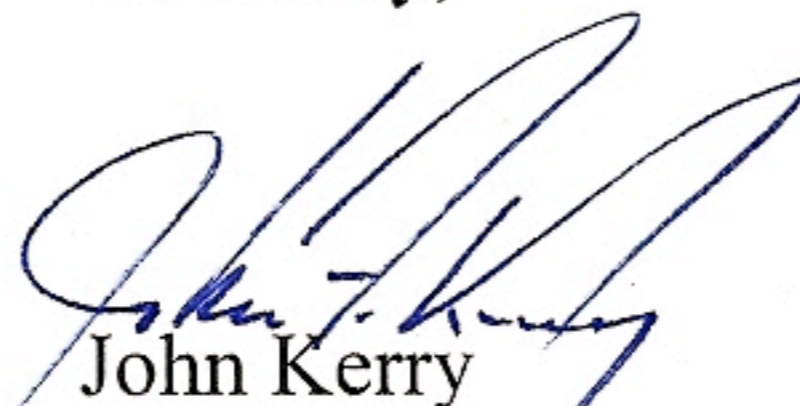

Dear Elizabeth,

I would like to take this opportunity to commend you for your tireless efforts with C2C and congratulate you on the upcoming official opening of the clinic in Haiti in August 2010. I am happy to hear about the work C2C is doing to support Haiti's national plan for health sector redevelopment. Your clinics provide an immediate replacement for damaged facilities and a supplement to imperfect delivery systems.

I encourage your commitment to restoring local institutions as leading providers of health care in Port-au-Prince, and I think use of "earthquake proof" and transportable shipping containers is particularly appropriate during this transition period. Recent reports from the WHO suggest that the foremost health care challenges in Port-au-Prince now involve primary and preventive care for maternal and pediatric populations. C2C's mission to focus on these services and demographics makes the project wholly relevant to the solution.

C2C's growth is evidence of your hard work and the efficiencies gained through strategic partnerships. Again, congratulations on the project's successful transport to Haiti and the imminent start of providing care to the most vulnerable Haitians. I wish your team continued success as you build on early efforts to increase access to care in Haiti.

Sincerely,

John Kerry  
United States Senator
